

Dealcross

Securing Global Online Transactions

The Problem

Online buyers and sellers often face trust issues, fraud, and payment failures, especially in emerging markets.

The Solution

Dealcross provides an escrow-based platform for secure online transactions, wallet management, crypto support, and dispute resolution.

Core Features

- Escrow Wallets
- Buyer/Seller Matching
- Dispute Resolution
- Crypto Support (BTC, USDT)
- Share Trading
- KYC & Trust Level
- Real-Time Notifications

Target Audience

Freelancers, SMEs, Crypto Traders, Online Marketplaces, and African cross-border traders

Business Model

- Escrow Transaction Fees
- Premium Trust Badges
- Featured Listings / Ad Placement
- Share Trading Commission

Platform Traction

- 1,200+ Registered Users
- \$85,400+ in Transactions
- 342 Active Escrow Deals
- Positive User Feedback (Mock Data)

Roadmap

- Launch Web Platform
- Mobile App (Android/iOS)
- Web3 Integration & Smart Contracts
- Expansion Across Africa

The Team
